

"I understand it's cheaper; it's better, and we'll become a model of the world. Congratulations to you and your company. Thank you."

*-Truman Scarborough, chairman, Brevard County Board of County Commissioners*

"This really is a great day for all of us in Port St. John and the district who have worked toward this...I'm absolutely delighted."

*-Maureen Rupe, president, Brevard Partnership for a Sustainable Future*

"A reduction of nine hundred thousand tons of greenhouse gases - what a tremendous step forward that is for Florida! And I hope that sends a message out to everyone else here that we all need to do our share."

*-Eric Draper, deputy director, Audubon of Florida*

"The Climate Group salutes Florida Power & Light for their efforts to provide reliable and affordable energy in the cleanest way possible...Florida Power & Light's environmental footprint, which is already among the best in the country, will improve significantly."

*-Susan Glickman, USA southern region director, The Climate Group*

"Adding an additional twelve million dollars annually in revenue as a tax base is a great message to send. The jobs this project will create during its construction are a great message to send. And the message we are sending not just statewide, not just nationally, but worldwide, is that Brevard County is a great place to do business."

*-George Mikitarian, president and CEO, Parrish Medical Center; chairman, Economic Development Commission of Florida's Space Coast*
