

STEM Classroom Makeover Grant

We're breaking down barriers to opportunity by empowering the next generation of leaders, thinkers and innovators.

As part of our commitment to STEM education, the NextEra Energy Foundation will award **up to 10 schools each a \$50,000 classroom makeover grant** to improve technology, equipment and resources for the next generation of innovators.

This grant is intended to provide transformational learning opportunities for Black students in a classroom setting. Funds are available to address needs in infrastructure, technology or resources (i.e. software, equipment, books, training of teachers, tutors, paraprofessionals) to advance the STEM curriculum and increase exposure of Black students to STEM education and careers.

Investing in tomorrow's leaders

NextEra Energy is committed to supporting our communities to help make them better places to live, work and raise a family. One way we do this is by supporting education programs that enrich students' experiences, as it relates to science and math programs, and which many times help break down barriers to opportunity.

To apply, visit:
FPL.com/classroomgrant

Timeline:

- » Sept. 1 – Nov. 15, 2021:
Grant applications accepted
- » Dec. 1, 2021:
Grant recipients announced
- » January 2022:
Classroom updates begin

Applicant Criteria:

- » Classroom must have a minimum of 25% Black students.
- » Applicants will be asked to declare Title One status (while not a requirement, will be given additional weight in selection process).
- » Applicants will identify a fiscal agent that will manage funds (preferred partner is local education foundation.)
 - Applicants will be required to upload a W-9 for the fiscal agent and letter from principal supporting application.

Grants will be awarded to 10 schools per year with five being in Florida Power & Light Company/Gulf Power's service area and five outside of Florida, from 2021 through 2024. This grant is open to all public, private and charter schools and all grade levels.
