Clean, affordable energy for you

We’re continuing to invest in affordable clean energy like more efficient natural gas plants and emissions-free solar. As part of a four-year rate agreement approved in 2016, a base rate increase will take effect in January that includes costs for four new solar power plants. The good news – the increase will be largely offset by decreases in other charges that also change in January.

And we’re building even more solar, with another four plants coming online in March that will bring a small base rate increase. FPL has also requested additional bill adjustments in March, including decreases in bill clauses as the St. Johns River Power Park coal plant shuts down and the beginning of cost recovery for devastating Hurricane Irma.

So, what does it mean for your energy bill? The majority of business customers will see an increase of 1 percent or less in 2018. We expect typical business bills to remain among the lowest in the state and nation.

Where does your energy come from?

FPL’s power comes from a variety of sources, including clean-burning natural gas and emissions-free nuclear and solar. We’re significantly reducing our use of coal while substantially increasing our investment in cost-effective solar.

See how we compare to the rest of the nation:
Business rate classification is based on your maximum monthly energy usage and when you use energy. Qualifying for another rate may produce savings for some customers. For example, if your business can shift a significant part of electric usage to off-peak times when the demand for energy is lower, you may benefit from our time-of-use (TOU) rates. With TOU rates, you are billed at a lower rate for off-peak usage and a higher rate for peak-period usage. To benefit, your energy use must be shifted away from the following peak hours, Monday through Friday:

- April 1 to Oct. 31, noon to 9 p.m.
- Nov. 1 to March 31, 6 to 10 a.m. and 6 to 10 p.m.

1. Rates as approved by the Florida Public Service Commission in Docket Nos. 160021, 170001, 170002 and 170007.
2. Storm charges as filed in a Routine Storm Charge True-Up Adjustment Request in Docket No. 080038-EI.
3. The ERCB has approved an Interim Storm Restoration charge as filed in Docket No. 160051-EI.

For more information about your bill or to view available business rate options that might be more economical for your business, visit: [FPL.com/TOU](http://FPL.com/TOU)
Gross receipts tax
FPL pays a tax equal to 2.5 percent of gross electric revenues to the state. This tax appears as a separate line item on our bill.

Resale of electric service prohibited
The Florida Administrative Code prohibits the resale of electricity for a profit. The actual cost of electricity billed by FPL may be reasonably allocated among tenants, lessees and other entities as long as no profit is made.

Learn about deposits
Since all customers are billed for energy after it’s used, we may ask those opening new accounts to pay a deposit amount based on the expected average cost of two months of service at the address. If your average usage turns out to be higher than the estimated cost, we may ask you to pay the difference to bring the deposit to the required level.

For deposits held more than six months, you will earn two percent interest from the time the deposit is paid in full, and three percent interest for a deposit held 23 continuous months after 12 months of prompt payment. This interest is credited to your account annually. For customers with a good payment history, we may refund your deposit after 36 months. Learn more about refunds and other deposit information, including accepted payment options: FPL.com/bizdeposits
