Ringing in the new year with low bills

Living in paradise has its benefits – from sunny days to beautiful beaches to energy bills that are among the lowest in the nation. Did you know? FPL’s typical residential 1,000-kWh customer bill is about 30 percent below the national average and lower than 46 of all 50 states.

Providing affordable, reliable and clean energy is our commitment to you. Through continued investments in technology, we produce energy more efficiently, providing you with affordable power that’s reliable. New modern, efficient energy centers, as well as smart grid upgrades that help detect and prevent issues before they become power interruptions, all contribute to keeping your lights on and energy costs down.

Learn about deposits

Since all customers are billed for energy after it’s used, we may ask those opening new accounts to pay a deposit amount based on the expected average cost of two months of service at the address. If your average usage turns out to be higher than the estimated cost and your bills are not current, we may ask you to pay the difference to bring the deposit to the required level.

Your deposit begins to earn two percent interest once you have paid your bill in full for six months. Interest is credited to your account each June. The deposit and earned interest is refunded to your account after 23 months of service and 12 months of good payment history, or after you close your account. Learn more: FPL.com/deposit

Gross receipts tax

FPL pays a tax equal to 2.5 percent of gross electric revenues to the state. This tax appears as a separate line item on our bill.
