

FPL procurement policy

FPL is committed to being the preferred provider of safe, reliable, and cost-effective products and services that satisfy the electricity-related needs of all customer segments.

In support of our vision, FPL will procure quality products and services that satisfy performance requirements. Procurement decisions will be made on the basis of quality, cost, reliability, delivery, field support, safety and other pertinent criteria.

FPL will seek and develop business relationships with suppliers that are capable of satisfying our requirements, financially sound, and committed to continuous improvement and innovation. We welcome supplier recommendations for standardization and alternatives that reduce cost and improve customer satisfaction.

FPL promotes ethical behavior and will ensure that our agents and representatives demonstrate impartiality, fairness, and confidentiality in all transactions.
