** Your EV electric service amount includes the following charges:	
EV Non-fuel energy charge	
EV on-peak:	\$0.240830 per kWh
EV off-peak:	\$0.035160 per kWh
EV fuel charge	
EV on-peak:	\$0.034280 per kWh
EV off-peak:	\$0.031040 per kWh

METER SUMMARY 5			
Meter reading - Meter	Next meter reading Aug 6, 2026.		
Usage Type	Current	- Previous	= Usage
kWh used	12563	09924	2639
Res kWh used			1704
EV charger reading - Charger			
EV kWh used	000944	000009	935
EV on-peak kWh used			5
EV off-peak kWh used			930

ENERGY USAGE COMPARISON		
	This Month	Last Month
Service to	Jul 7, 2026	Jun 5, 2026
kWh Used	2639	2593
Service days	32	30
kWh/day	82	86
Amount	\$348.63	\$423.68

KEEP IN MIND

- Taxes, fees, and charges on your bill are determined and required by your local and state government to be used at their discretion.
- The fuel charge represents the cost of fuel used to generate electricity. It is a direct pass-through to customers. FPL does not profit from fuel, although higher costs do result in higher state and local taxes and fees.

- EV electric service amount:** The total EV electric service amount is made up of FPL EVolution Home base rates, the non-fuel charge and the fuel charge.
- FPL EVolution Home charge:** The recurring cost of providing the program will appear as \$36.00 for the full installations, or \$27.00 for equipment-only installations.
- EV non-fuel energy charge:** This combines the FPL EVolution Home base energy rates with other non-fuel costs, including operating power plants and maintaining the electric grid. Together, these charges total 24.083¢/kWh during on-peak hours and 3.516¢/kWh during off-peak hours.
 - Base rates:** A lower rate of 2.016¢/kWh applies during off-peak hours, and a rate of 22.583¢/kWh applies during on-peak hours.
 - Non-fuel charge:** An additional 1.5¢/kWh applies during both off-peak and on-peak hours. Visit [FPL.com/Rates](https://www.fpl.com/Rates) to learn more about what this charge includes.
- EV fuel charge:** These charges include the cost for fuel required to provide each kWh of electricity. FPL makes no profit on fuel costs. A rate of 3.104¢/kWh applies during off-peak hours, and a rate of 3.428¢/kWh applies during on-peak hours.
- Meter summary:** In the “Meter Summary” section of your bill, you can easily track the specific amount of off-peak and on peak kWh utilized for charging your EV, separate from the electricity you use in the rest of your home. We track this usage through your Wi-Fi connection and exclude EV kWh used from your total residential kWh used.
 - Wi-Fi connection:** Losing Wi-Fi connectivity could lead to billing inaccuracies. It’s important to keep your push notifications on and resolve any Wi-Fi connectivity issues promptly on the FPL EVolution app to ensure accurate billing.
