How a Solar Energy Center Works

Florida's Energy Landscape is Bright

Florida Power & Light Company offers America's best energy value with the cleanest, most reliable energy at a price that's one of the lowest in the country. The company has a groundbreaking Real Zero goal of eliminating carbon emissions from our power plant fleet by no later than 2045. We plan to achieve Real Zero with a diverse mix of solar, batteries, existing nuclear, green hydrogen and other renewable sources. And, as we work toward Real Zero, we intend to keep customer bills well below the national average, just as they've been for more than a decade.

FPL's Commitment to Hendry County

The FPL Ghost Orchid Solar Energy Center started operations in 2022 in Clewiston, alongside the FPL Sawgrass Solar Energy Center. The FPL Hammock Energy Center in La Belle, which started operations in 2018, was FPL's first in Hendry County. The FPL Blue Heron Solar Energy Center in Clewiston began servicing customers in 2020. FPL has more than one million solar panels in Hendry County.

FPL SolarNow trees and canopies are innovative solar structures that provide shade and harness the power of the sun while generating emissions-free energy that benefits everyone. In Hendry County, LaBelle High School is home to three FPL SolarNow trees that teach students and visitors about clean energy.
