

FPL Palm Bay Solar Energy Center

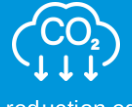

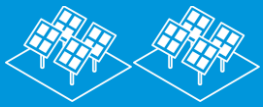

Brevard County

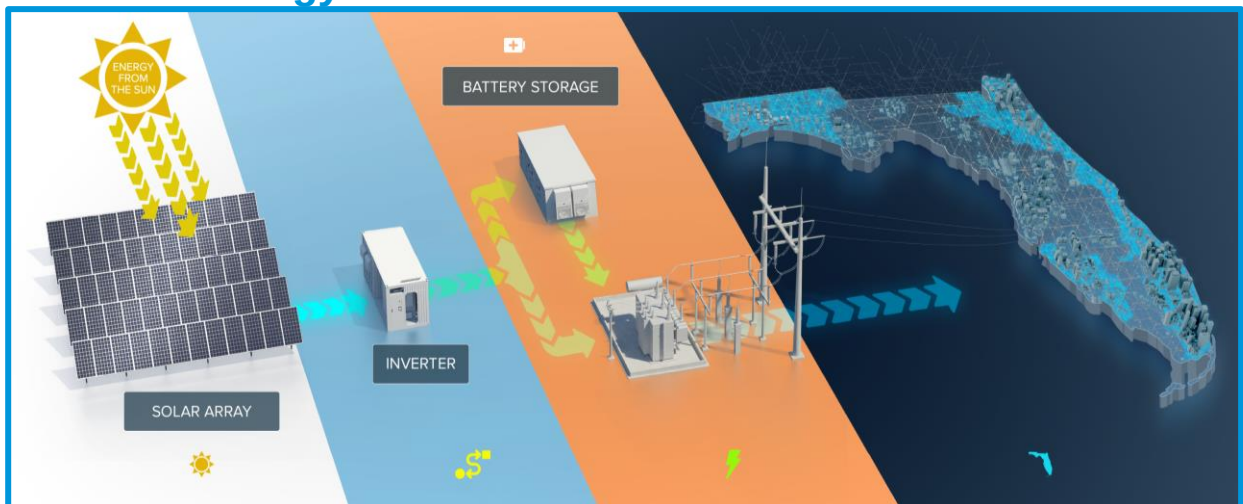

The FPL Palm Bay Solar Energy Center, which started operations in 2021, is creating an even brighter future for Brevard County. Florida Power & Light Company continues to advance solar cost-effectively while keeping customer bills among the lowest in the nation. We're proud to have universal solar in Palm Bay.

Location: 1106 Centerlane Road, Palm Bay, FL 32948

FPL Palm Bay Solar Energy Center by the numbers

 284,648 photovoltaic solar panels	 74.5 megawatts of clean, emissions-free energy	 Powering about 15,000 homes annually with low-cost, renewable energy	 Emissions reduction equivalent to removing 14,000 cars from the road each year
 Solar site located on a 486-acre property		 Serving Brevard County's more than 332,000 FPL customers and beyond	 FPL contributed more than \$24MM in tax revenue to Brevard County in 2021

How a Solar Energy Center Works

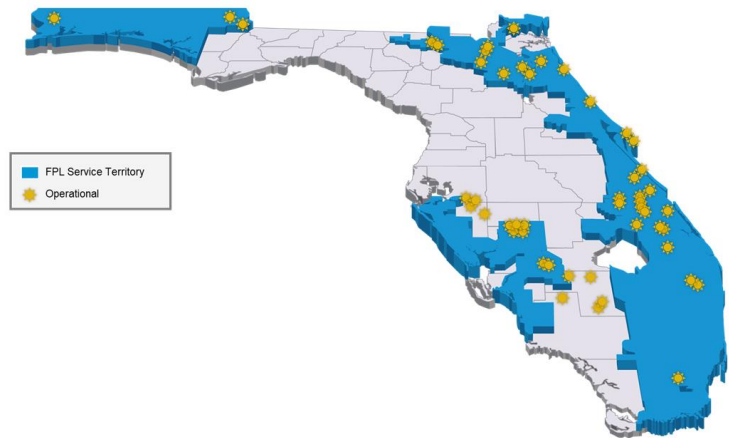

Community Solar

FPL SolarTogether is the largest community solar program in the country. It gives all FPL customers the opportunity to enjoy the benefits of solar no matter where they live, or whether they rent or own their home or business. For a low monthly charge, customers receive the benefits of their portion of the energy generated at our solar energy centers in the form of monthly credits on their FPL bill. Over time, credits increase and lower the program participants' bills.

Florida's Energy Landscape is Bright

Florida Power & Light Company offers America's best energy value with the cleanest, most reliable energy at a price that's one of the lowest in the country. The company has a groundbreaking Real Zero goal of eliminating carbon emissions from our power plant fleet by no later than 2045. We plan to achieve Real Zero with a diverse mix of solar, batteries, existing nuclear, green hydrogen and other renewable sources. And, as we work toward Real Zero, we intend to keep customer bills well below the national average, just as they've been for more than a decade.

FPL's Commitment to Brevard County

In 2021, the FPL Palm Bay Solar Energy Center opened in Brevard County followed by the FPL Discovery Solar Energy Center at Kennedy Space Center. It was preceded in 2020 by the FPL Barefoot Bay Solar Energy Center and in 2010 by the Space Coast Next Generation Solar Energy Center at Kennedy Space Center. Combined, FPL has installed nearly one million solar panels in Brevard County.

FPL SolarNow trees and canopies are innovative solar structures that provide shade and harness the power of the sun while generating emissions-free energy that benefits everyone. In Brevard County, SolarNow installations can be found at Kennedy Space Center, Port Canaveral, Riverview Park, Pelican Beach Park, Palm Bay City Hall and the Brevard Zoo.
