

FPL Sabal Palm Solar Energy Center

Palm Beach County

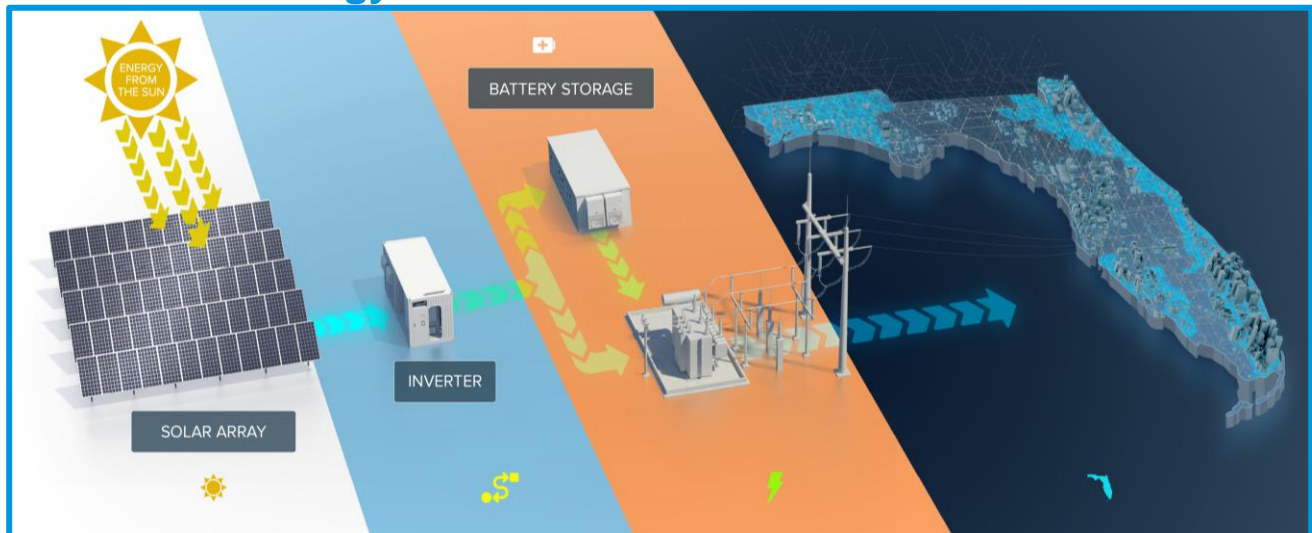

The FPL Sabal Palm Solar Energy Center, which started operations in 2021, is creating an even brighter future for Palm Beach County. Florida Power & Light Company continues to advance solar cost-effectively while keeping customer bills among the lowest in the nation. We're proud to have universal solar in Loxahatchee.

Location: 19655 Antoinette Street, Loxahatchee, FL 33470

 <p>Solar site located on a 646-acre property</p>	 <p>Serving Palm Beach County's approximately 771,000 FPL customers and beyond</p>	 <p>FPL contributed more than \$112MM in tax revenue to Palm Beach County in 2021</p>	

How a Solar Energy Center Works

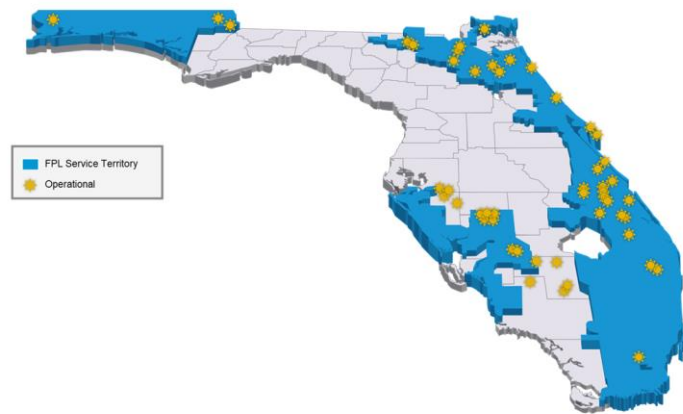

Community Solar

FPL SolarTogether is the largest community solar program in the country. It gives all FPL customers the opportunity to enjoy the benefits of solar no matter where they live or whether they rent or own their home or business. For a low monthly charge, customers receive the benefits of their portion of the energy generated at our solar energy centers in the form of monthly credits on their FPL bill. Over time, credits increase and lower the program participants' bills.

Florida's Energy Landscape is Bright

Florida Power & Light Company offers America's best energy value with the cleanest, most reliable energy at a price that's one of the lowest in the country. The company has a groundbreaking Real Zero goal of eliminating carbon emissions from our power plant fleet by no later than 2045. We plan to achieve Real Zero with a diverse mix of solar, batteries, existing nuclear, green hydrogen and other renewable sources. And, as we work toward Real Zero, we intend to keep customer bills well below the national average, just as they've been for more than a decade.

FPL's Commitment to Palm Beach County

The FPL Hibiscus Solar Energy Center in Westlake was the company's first solar energy center in Palm Beach County and opened in 2020. It was joined by the FPL Sabal Palm Solar Energy Center in Loxahatchee in 2021. With FPL's parent company, NextEra Energy, headquartered in Palm Beach County, FPL is proud to have more than half a million solar panels installed here.

FPL SolarNow trees and canopies are innovative solar structures that provide shade and harness the power of the sun while generating emissions-free energy that benefits everyone. In Palm Beach County, there are 11 FPL SolarNow locations which teach residents and visitors about clean energy.
