

FPL Sweetbay Solar Energy Center

Martin County

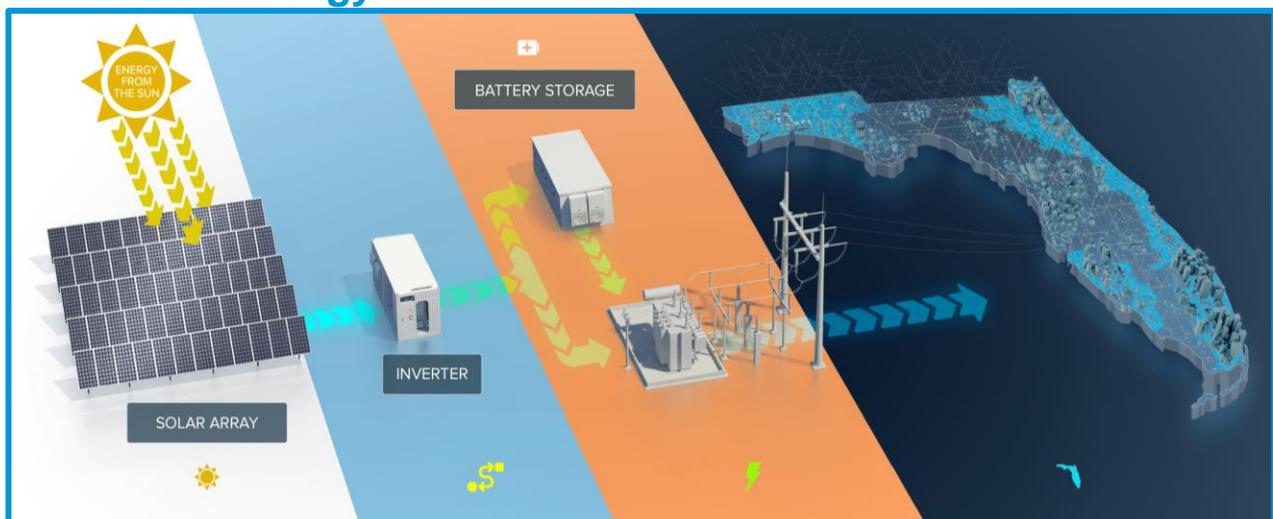

The FPL Sweetbay Solar Energy Center, which started operations in 2020, is creating an even brighter future for Martin County. Florida Power & Light Company continues to advance solar cost-effectively while keeping customer bills among the lowest in the nation. We're proud to have universal solar in Indiantown.

Location: 12151 SW Allapattah Road, Indiantown, FL 34956

FPL Sweetbay Solar Energy Center by the numbers

 <p>301,977 photovoltaic solar panels</p>	 <p>74.5 megawatts of clean, emissions-free energy</p>	 <p>Powering about 15,000 homes annually with low-cost, renewable energy</p>	 <p>Emissions reduction equivalent to removing 14,000 cars from the road each year</p>
 <p>Solar site located on a 566-acre property</p>		 <p>Serving Martin County's approximately 98,000 FPL customers and beyond</p>	 <p>FPL contributed more than \$36MM in tax revenue to Martin County in 2021</p>

How a Solar Energy Center Works

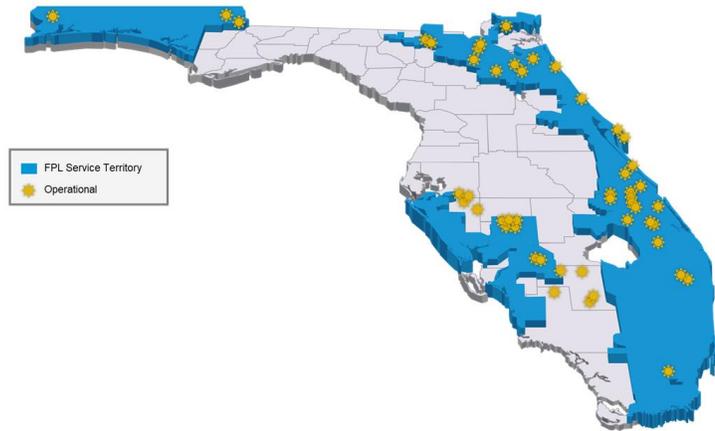

Community Solar

FPL SolarTogether is the largest community solar program in the country. It gives all FPL customers the opportunity to enjoy the benefits of solar no matter where they live or whether they rent or own their home or business. For a low monthly charge, customers receive the benefits of their portion of the energy generated at our solar energy centers in the form of monthly credits on their FPL bill. Over time, credits increase and lower the program participants' bills.

Florida's Energy Landscape is Bright

Florida Power & Light Company offers America's best energy value with the cleanest, most reliable energy at a price that's one of the lowest in the country. The company has a groundbreaking Real Zero™ goal of eliminating carbon emissions from our power plant fleet by no later than 2045. We plan to achieve Real Zero with a diverse mix of solar, batteries, existing nuclear, green hydrogen and other renewable sources. And, as we work toward Real Zero, we intend to keep customer bills well below the national average, just as they've been for more than a decade.

FPL's Commitment to Martin County

Sweetbay was FPL's second solar installation in Martin County and was preceded in 2010 by the Martin Next Generation Solar Energy Center. Combined, FPL has installed nearly 500,000 solar panels in Martin County.

FPL SolarNow trees and canopies are innovative solar structures that provide shade and harness the power of the sun while generating emissions-free energy that benefits everyone. In Martin County, SolarNow installations can be found at Kiwanis Park in Stuart.
