

# FPL Union Springs Solar Energy Center

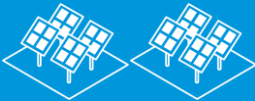

Union County

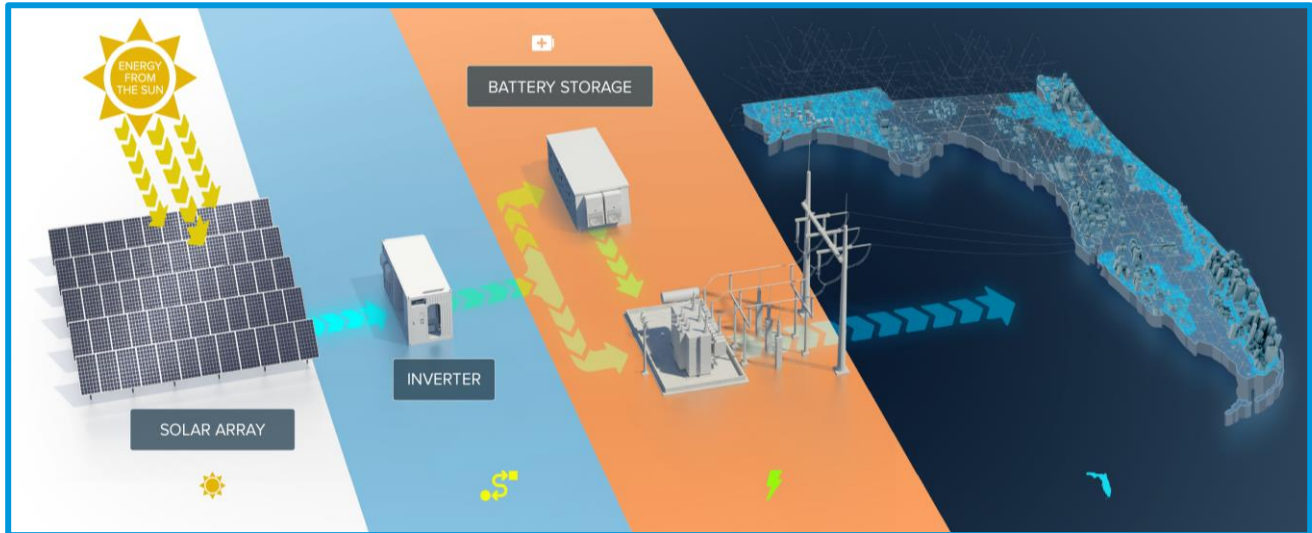

The FPL Union Springs Solar Energy Center, which started operations in 2020, is creating an even brighter future for Union County. Florida Power & Light Company continues to advance solar cost-effectively while keeping customer bills among the lowest in the nation. We're proud to have universal solar in Lake Butler.

Location: 9073 SE CR 237, Lake Butler, FL 32054

## FPL Union Springs Solar Energy Center by the numbers

 <p><b>282,200</b> photovoltaic solar panels</p>	 <p><b>74.5</b> megawatts of clean, emissions-free energy</p>	 <p>Powering about <b>15,000</b> homes annually with low-cost, renewable energy</p>	 <p>Emissions reduction equivalent to removing <b>14,000</b> cars from the road each year</p>
 <p>Solar site located on a <b>814</b>-acre property</p>		 <p>Serving Union County's approximately <b>1,700</b> FPL customers and beyond</p>	 <p>FPL contributed over <b>\$560K</b> in tax revenue to Union County in 2021</p>

## How a Solar Energy Center Works

### Community Solar

FPL SolarTogether is the largest community solar program in the country. It gives all FPL customers the opportunity to enjoy the benefits of solar no matter where they live or whether they rent or own their home or business. For a low monthly charge, customers receive the benefits of their portion of the energy generated at our solar energy centers in the form of monthly credits on their FPL bill. Over time, credits increase and lower the program participants' bills.

### Florida's Energy Landscape is Bright

Florida Power & Light Company offers America's best energy value with the cleanest, most reliable energy at a price that's one of the lowest in the country. The company has a groundbreaking Real Zero goal of eliminating carbon emissions from our power plant fleet by no later than 2045. We plan to achieve Real Zero with a diverse mix of solar, batteries, existing nuclear, green hydrogen and other renewable sources. And, as we work toward Real Zero, we intend to keep customer bills well below the national average, just as they've been for more than a decade.
