# How to read your bill

## Net metering

### 1 Keep in mind

- Important information including:
  - How much energy was sent to the grid
  - How much excess energy was applied to your account to reduce your bill
  - How your kWh reserve was decreased/increased
  - Your total kWh reserve amount
- The reserve is how much energy you have left over. Any energy reserves will roll over to the next month's bill to reduce your total. If you have unused kWh in your reserve when your meter is read in December, a credit will be applied to your December bill and your reserve is reset to zero.

### 2 Bill-specific information:

- Service period dates:** The service days included in this bill. Note: The number of days in a billing period may fluctuate due to weekends, holidays or changes in the date we read your meter.
- Statement date:** The date upon which the monthly bill is generated.
- Account number:** This is a unique identifier for the customer at this address – refer to this number if you contact FPL about your account.
- Service address:** The location where electricity is being provided.

### 3 Total amount due

The amount you owe for services already used during the billing period, plus any outstanding service charges, deposits or late payment fees incurred.

### 4 New charges due by

When the payment for new charges is due.

### 5 Bill summary

A high-level summary of the total amount due and payments received during the service period indicated on your bill.

### 6 Bill messages

Important and timely information that can benefit our customers.

**5** **BILL SUMMARY**

Amount of your last bill	29.89
Payments received	-29.89
Balance before new charges	0.00
Total new charges	30.02
<b>Total amount you owe</b>	<b>\$30.02</b>

**FPL automatic bill pay - DO NOT PAY**

(See page 2 for bill details.)

**1** **KEEP IN MIND**

- Payments received after September 01, 2022 are considered late; a late payment charge, the greater of \$5.00 or 1.5% of your past due balance will apply. Your account may also be billed a deposit adjustment.
- The amount due on your account will be drafted automatically on or after August 22, 2022. If a partial payment is received before this date, only the remaining balance due on your account will be drafted automatically.
- 447 kWh were sent to the grid this period. 1,008 kWh were applied to reduce your bill. Your kWh reserve decreased by 561. The kWh in your reserve is 0.
- Your bill is subject to a minimum base bill charge. Please visit FPL.com/rates for details.
- Your On Call Credit has been prorated, either as a result of low monthly consumption or because the billing period is not a full month.

**6** An approved rate decrease is in effect. Learn more at FPL.com/Rates.

### 7 How to contact FPL

You can manage your account, make a payment, report an outage and more at FPL.com, or you can call us.

### 8 Energy usage history

Illustrates the monthly kilowatt-hours (kWh) used for the last 13 months.

### 9 Customer contact information

Name associated with the account and the address requested to have communications sent.

### 10 Payment mailing address

Location to send a check payment for this bill. For more payment options, visit FPL.com/WaysToPay.

- a. **Meter number:** Unique identifier associated with your electric bill.
- b. **Next meter read date:** Date the next meter reading is scheduled to take place.
- c. Meter reading from the last day of the service period minus the meter reading from the last day of the previous service period to determine kWh used during the service period for this bill.

Determines how the bill is calculated – for this account, RS-1 for residential service.

These charges are regulated by the Florida Public Service Commission. The total electric service amount is made up of the following charges:

- a. **Base charge:** A fixed monthly amount to cover the cost of providing service to your location. This charge includes the cost of the meter, billing and providing customer service. It is applicable whether or not electricity is used.
- i. **Minimum base bill charge:** Our \$25 minimum base bill ensures all customers contribute to fixed system costs, which do not vary with electricity usage. These costs include poles, transformers and wires used by all customers, including net metering customers even if your kWh reserve is applied to lower your bill.
- b. **Non-fuel charge:** This total charge is made up of base rates and the following charges:
  - i. **Energy Conservation Cost Recovery Charge (ECCRC):** Cost of programs designed to reduce electric demand and consumption.
  - ii. **Capacity Cost Recovery Clause (CCRC):** Cost for purchasing electricity from non-FPL-owned resources, as well as certain nuclear-related expenses.
  - iii. **Environmental Cost Recovery Clause (ECRC):** Cost to meet environmental laws and regulations.
  - iv. **Storm Protection Plan Cost Recovery Clause (SPPCRC):** Cost to strengthen the grid in order to reduce restoration costs and outage times during major storms, as well as improving day-to-day service reliability.
  - v. **Transition credit:** Addresses the difference in costs to serve FPL and former Gulf Power customers in a reasonable manner for all customers. Transition credit will decline to zero over a five-year period, fully aligning rates by Jan. 1, 2027.
- c. **Fuel charge:** The cost for fuel required to provide each kilowatt-hour (kWh) of electricity. FPL makes no profit on fuel costs.

## 14 Taxes and charges

Taxes and fees may vary by area, with amounts established by local governing bodies. FPL collects these costs for distribution to appropriate entities and does not profit from them. The amount is made up of the following charges:

- a. Gross receipts tax:** Tax on a customer's electric bill that is paid to the State of Florida.
- b. Franchise charge:** Fee on a customer's electric bill that is collected by FPL and provided to the appropriate local municipality or county government.
- c. Regulatory assessment fee:** Tax on a customer's electric bill that is paid to the Florida Public Service Commission.

Compares the kilowatt-hours (kWh) used this month to last month, and to last year for the same period. A variety of factors may affect energy usage. For tips to manage your energy usage, visit [FPL.com/WaysToSave](http://FPL.com/WaysToSave).
