

Rebates for Your Business: Unlock Energy Savings and Boost Efficiency

We believe that optimizing efficiency is not only good for the environment but also great for your bottom line. Our rebate programs are designed to help businesses like yours save energy and money. Discover the possibilities today!

Illuminate Your Success with Business Lighting Rebates

Did you know that interior lighting can account for more than 25% of the energy used in commercial buildings? Upgrade your lighting systems to boost energy efficiency, lower maintenance costs, and reduce cooling loads. And the best part? You could qualify for rebates of up to \$20 per LED fixture!

Contact our program specialist via email at Lighting-Rebates@FPL.com to get started on your brighter future.

Climate Control Made Affordable with Business HVAC Rebates

Maintaining a comfortable and productive work environment while minimizing energy costs is crucial. That's why we offer rebate options for certain HVAC system upgrades. Take advantage of significant savings when you upgrade your HVAC products, including chillers, direct-expansion air conditioning units, demand control ventilation systems, energy recovery ventilation systems, kitchen demand control ventilation, and thermal energy storage solutions.

Get in touch with our program specialist at FPL-BHVACRebates@FPL.com to learn more.

When it comes to saving energy and maximizing efficiency for your business, we have multiple rebate programs and services. Visit FPL.com/bizprograms to find out more.

Questions? Contact our Business Customer Care Center at **800-FPL-2434 (800-375-2434)**.

Looking for land to expand your business?

FPL properties across the Sunshine State have available acreage that could potentially be used for cattle farming, nurseries, landscaping, storage, parking and more. If your business is looking for space, visit FPLland.com to learn about licensing land to fuel your business's growth.

Update your contact info

It's faster and easier to get the help you need if we have your accurate contact information. Access your account with the FPL Mobile App or log in to our website to ensure your contact information is current. Visit: [» FPL.com/profile](http://FPL.com/profile)

Where does your energy come from?

FPL delivers you energy from a variety of sources, including clean, U.S.-produced natural gas and emissions-free nuclear and solar. We continue to make cost-effective investments in solar energy while eliminating our use of coal from Florida.

Our latest fuel mix compared to the rest of the nation:

FUEL	FPL ¹	U.S. ²
Natural Gas	70.4%	39.8%
Nuclear	19.6%	18.2%
Solar	6.1%	3.4%
Purchased Power	3.5%	N/A
Coal ³	0.3%	19.5%
Oil	0.2%	0.6%
Other	N/A	18.5%

¹ Sources of electricity generation for the 12 months between November 2022 and October 2023; figures may not add up to 100% due to rounding. ² Major energy sources and percent share of total U.S. electricity generation in 2022 from U.S. Energy Information Administration. ³ Coal generation is obtained from units outside of the state of Florida

Time-of-use

Business rate classification is based on your maximum monthly energy usage and when you use energy. Qualifying for another rate may produce savings for some customers. For example, if your business can shift a significant part of electric usage to off-peak times when the demand for energy is lower, you may benefit from our time-of-use (TOU) rates. With TOU rates, you are billed at a lower rate for off-peak usage and a higher rate for peak-period usage. To benefit, your energy use must be shifted away from the following peak hours, Monday through Friday:

April 1 to Oct. 31: 12 – 9 p.m. ET (11 a.m. - 8 p.m. CT) *

Nov. 1 to March 31: 6 - 10 a.m. ET (5 – 9 a.m. CT) and 6 – 10 p.m. ET (5 – 9 p.m. CT)*

For more information about your bill or to view available business rate options that might be more economical for your business, visit: [FPL.com/TOU](https://www.fpl.com/TOU)

*Excludes New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day
