

Diverse energy mix fuels savings

Modernizing and diversifying our power generation fleet has saved customers more than \$17.6 billion in avoided fuel costs since 2001. Because fuel costs are passed directly to customers, when we save on fuel, you save on your bill.

Our diverse and efficient energy mix includes low-cost solar, cutting-edge battery storage, one of the nation's largest natural gas fleets, and safe, reliable nuclear power plants. In 2025, our diverse energy generation fleet saved customers more than \$1.2 billion in fuel costs, helping FPL keep customer bills well below the national average.

We're constantly leveraging the latest technology to generate electricity more efficiently and help keep bills low for you.

Ready for spring trimming?

Please remember to stay safe and far away from power lines during the "spring trimming" season. Safely maintaining trees and vegetation and keeping them away from power lines is a shared responsibility between FPL and property owners. Never trim vegetation that is growing near a power line – hire a qualified, specially trained line-clearing professional to do the job. Stay safe. Always keep yourself and any object you are touching at least 10 feet from power lines.

Stay informed with our Medically Essential Service

If you or someone you know is dependent on electric-powered medical equipment, let us know. Our Medically Essential Service will help keep those with medical needs informed by providing extra services, such as special notifications before a hurricane. It's important to note that the program does not guarantee service nor provide an exemption from paying electric bills.

Evacuation help for special needs customers

With storm season approaching, it's important to be prepared. If you or anyone you know has special needs and requires assistance in case of evacuation, your local government can help.

Tools to help you save

We offer programs to save energy and money. Here's how:

- » **Online tools:** Get a breakdown of your energy expenses and expert tips on lowering your bill. Log in to your FPL.com account and select the Energy Manager.
- » **Free in-home evaluation:** You can request an energy expert visit to identify energy-saving opportunities and available rebates. Call 800-DIAL-FPL (800-342-5375) to schedule an appointment.
- » **Computer-Assisted Survey:** This in-home evaluation costs \$15. We estimate potential savings, installation costs, and payback period for each recommendation.

Additionally, a Building Energy Rating Survey involves assessing your home according to Florida's energy-efficiency code for new construction and may qualify you for better mortgage rates or increase resale value.

- » **Class 1 or 2 Survey:** On-site inspection for new or existing homes. Cost is \$480 (\$555 with AC duct leak test) *, plus \$35 per additional handler.
- » **Class 3 Survey:** \$75 for new construction based on plans and documents.

**For homes > 2,000 sq ft: Class 1 and 2 surveys cost 8 cents/sq ft extra. Class 3 survey has an additional cost of 3 cents/sq ft.*

Where does your energy come from?

The power FPL delivers to you comes from a variety of sources, including U.S.-produced natural gas and safe, reliable nuclear energy. We also continue to make cost-effective investments in solar energy to drive down fuel costs for customers. Our latest generation mix compared to the rest of the nation:

GENERATION SOURCE	FPL ¹	U.S. ²
Natural Gas	66.2%	43.1%
Nuclear	19.6%	18.6%
Solar	11.0%	3.9%
Purchased Power	2.9%	N/A
Coal	0.3% ³	16.2%
Oil	>0.1%	0.4%
Other	N/A	17.8%

¹ Sources of electricity generation for the 12 months between January 2025 and December 2025.

² Sources of U.S. electricity generation as of February 2024 from U.S. Energy Information Administration.

³ Coal generation is from units outside of Florida.
