

Tools to help you save on energy

FPL Energy Manager

- » An online tool to help you gain insights into your home's energy usage and monitor energy consumption with the Energy Dashboard.

Take the FPL Energy Survey to get custom insights

- » Get personalized insights to improve Energy Manager results by answering short questions about appliances and energy usage. Receive customized tips for better home efficiency, specific solutions for your family's energy use and quick access to FPL programs and incentives.
- » Access Energy Manager or start your Energy Survey at **FPL.com/EnergyManager**

Free In-Home Evaluation

- » Our experts visit your home to identify energy-saving opportunities and provide information on available rebates.
- » Schedule your evaluation by calling 800-DIAL-FPL (800-342-5375)

Computer-Assisted Survey

- » This in-home evaluation costs \$15. We estimate potential savings, installation costs and payback period for each recommendation.

Additionally, a Building Energy Rating Survey involves assessing your home according to Florida's energy-efficiency code for new construction and may qualify you for better mortgage rates or increase resale value.

- » Class 1 or 2 Survey: On-site inspection for new or existing homes. Cost is \$480 (\$555 with A/C duct leak test)*, plus \$35 per additional handler.
- » Class 3 Survey: \$75 for new construction based on plans and documents.

** For homes > 2,000 sq. ft.: Class 1 and 2 surveys cost 8 cents/sq. ft. extra. Class 3 survey has an additional cost of 3 cents/sq. ft.*

Helpful resources for customers in need

Financial assistance and energy-saving support may be available for customers in need. FPL’s Assistance Center connects customers with resources like Saving Steps, which helps eligible customers manage monthly expenses with energy-saving options and earn a \$200 credit toward the next bill. Financial assistance is available for seniors, low-income customers and those facing a crisis. Call **211 Helpline** for community resources, or the **Elder Helpline** at 800-963-5337 if you’re 60 or older.

» More information on FPL and partner assistance can be found at **FPL.com/Assistance**

EMF: Understanding the Science

Electric and magnetic fields (EMF) are created wherever electricity exists or flows; this includes the wiring in our homes and schools, power lines and the electric equipment and devices we use at work and home. Research has been conducted by leading U.S. and international scientific organizations. None have found that exposure to EMF causes or contributes to any type of cancer or any other disease or illness.

Where does your energy come from?

The power FPL delivers to you comes from a variety of sources, including U.S.-produced natural gas and safe, reliable nuclear energy. We also continue to make cost-effective investments in solar energy to drive down fuel costs for customers. Our latest generation mix compared to the rest of the nation:

GENERATION SOURCE	FPL ¹	U.S. ²
Natural Gas	67.8%	40.8%
Nuclear	17.7%	17.7%
Solar	11.7%	6.7%
Purchased Power	2.4%	N/A
Coal	0.4% ³	16.6%
Oil	>0.1%	0.3%
Other	N/A	17.9%

¹ Sources of electricity generation for the 12 months between August 2025 and July 2026.

² Sources of U.S. electricity generation for 2025 from U.S. Energy Information Administration.

³ Coal generation is from units outside of Florida.
