

Diverse energy mix fuels savings

Modernizing and diversifying our power generation fleet has saved customers more than \$17.6 billion in avoided fuel costs since 2001. Because fuel costs are passed directly to customers, when we save on fuel, you save on your bill.

Our diverse and efficient energy mix includes low-cost solar, cutting-edge battery storage, one of the nation's largest natural gas fleets, and safe, reliable nuclear power plants. In 2025, our diverse energy generation fleet saved customers more than \$1.2 billion in fuel costs, helping FPL keep customer bills well below the national average.

We're constantly leveraging the latest technology to generate electricity more efficiently and help keep bills low for you.

Ready for spring trimming?

Please remember to stay safe and far away from power lines during the "spring trimming" season. Safely maintaining trees and vegetation and keeping them away from power lines is a shared responsibility between FPL and property owners. Never trim vegetation that is growing near a power line – hire a qualified, specially trained line-clearing professional to do the job. Stay safe. Always keep yourself and any object you are touching at least 10 feet from power lines.

Learn about deposits

Initial Deposits	New business accounts require a deposit based on the expected average cost of two months of service.
6 Month Follow-Up	Deposits are reviewed and adjusted six months after account opening to ensure accuracy.
Deposit Adjustments	Deposits below the average cost of two months of service, may be adjusted based on late payments or credit ratings (for a subset of business accounts).
Deposit Interest	Cash deposits earn annual interest in June: <ul style="list-style-type: none">» 2% - after the deposit and account have been active for six months.» 3% - after twenty-three months of continuous service and twelve months of good payment history.
Deposit Alternatives	As an alternative to cash, business customers can provide a Letter of Credit or a Surety Bond to satisfy their deposit requirement (only recommended for deposits over \$1,000).
Deposit Refunds	When an account closes, the full deposit plus unpaid interest will be applied to the final bill, with any remaining amount promptly refunded.

Where does your energy come from?

The power FPL delivers to you comes from a variety of sources, including U.S.-produced natural gas and safe, reliable nuclear energy. We also continue to make cost-effective investments in solar energy to drive down fuel costs for customers. Our latest generation mix compared to the rest of the nation:

GENERATION SOURCE	FPL ¹	U.S. ²
Natural Gas	66.2%	43.1%
Nuclear	19.6%	18.6%
Solar	11.0%	3.9%
Purchased Power	2.9%	N/A
Coal	0.3% ³	16.2%
Oil	>0.1%	0.4%
Other	N/A	17.8%

¹ Sources of electricity generation for the 12 months between January 2025 and December 2025.

² Sources of U.S. electricity generation as of February 2024 from U.S. Energy Information Administration.

³ Coal generation is from units outside of Florida.
