Resale of electric service prohibited

The Florida Administrative Code prohibits the resale of electricity for a profit. The actual cost of electricity billed by FPL may be reasonably allocated among tenants, lessees and other entities as long as no profit is made.

Where does your energy come from?

FPL's power comes from a variety of sources, including clean, U.S.-produced natural gas and emissions-free nuclear and solar.

Our latest fuel mix compared to the rest of the nation:

FUEL	FPL ¹	U.S. ²
Natural Gas	68.2%	39.3%
Nuclear	19.5%	20.5%
Solar	3.7%	2.3%
Purchased Power	5.8%	N/A
Coal ³	2.8%	19.9%
Oil	0.1%	0.4%
Wind	N/A	8.7%
Hydroelectric	N/A	7.4%
Other renewables	N/A	1.1%
Other (not classified)	N/A	0.2%

¹Sources of electricity generation for the 12 months between October 2020 and September 2021. ²U.S. Electric Power Sector, 2020 data, from U.S. Department of Energy. ³Coal generation is from units outside the state of Florida.

Account deposit policies

Since all customers are billed for energy after they use it, we may ask those opening new accounts to pay a security deposit equal to two months' average electric usage at the service address. Non-cash alternatives are available. After six months, your deposit will earn 2% interest from the time the deposit is paid in full. The interest will be applied to your account as a credit every June. After 23 months and a good payment history, your deposit will earn 3% interest.

If after six months your actual two-month average usage is higher than what was initially projected, we may ask you to increase your deposit amount. After 12 months, your deposit may be partially refunded if the deposit amount exceeds your actual two-month average usage. If the account is closed, any deposit balance plus interest will be applied towards the final bill and any excess credit refunded.

Summary of service charges

Type of Service Charge	Charge
Initial service connection	\$12
Transfer, open or reopen an existing account	\$9
Reconnection Reconnect service following nonpayment	\$5
Late payment For payments received after the due date	Greater of \$5 or 1.5% applied to any past-due unpaid balance of accounts
Return payment For a check returned by the bank	\$25 if \$50 or less \$30 if \$50.01 – \$300 \$40 if \$300.01 – \$800 5% if greater than \$800
Field visit For payment collection on a delinquent account	\$26
Meter tampering Charge for tampering with meter. In addition to the penalty charge for tampering with the meter, customers will be charged for the cost of the investigation.	\$500 residential & non-demand commercial; \$2,500 commercial

Taxes and other charges

Taxes and other charges on your monthly bill include the state gross receipts tax and regulatory assessment fee. Local jurisdictions may also assess a franchise fee and/or utility tax.

Minimum base bill

The Florida Public Service Commission has approved a minimum base bill of \$25, which we anticipate will take effect in June 2022. This is intended to help cover fixed costs of operating the electric grid and will only apply to residential and general service customers whose monthly electric service costs fall below \$25.

Time-of-use

A time-of-use (TOU) rate allows you to lower electric bills without reducing power consumption, as long as you are able to shift electricity use to off-peak times when the demand for electricity is lower. With TOU rates, you pay a lower rate for off-peak use and a higher rate for peak period use. To benefit, you must shift electricity use away from these on-peak hours. Monday through Friday:

April 1 to Oct. 31, 11 a.m. to 8 p.m. CT*

Nov. 1 to March 31, 5 a.m. to 9 a.m. and 5 p.m. to 9 p.m. CT*

For more information about your bill or to view available business rate options that might be more economical for your business, visit: [» FPL.com/TOU](https://www.fpl.com/TOU)

* Excludes New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day

RATES EDITION
Q1 2022

Building a more resilient and sustainable energy future

From all of us at Florida Power & Light Company, welcome to the family. We are honored to serve you and Northwest Florida.

A new year often brings fresh perspective. But that doesn't mean looking over the horizon is always easy. COVID-19 certainly hasn't made it any easier. Nor did Hurricane Sally, especially with Hurricane Michael's memory still fresh.

Please know that we're committed to serving you today while always keeping an eye on the future in our rapidly growing state that's on the front lines of climate change. Under our four-year rate agreement, unanimously approved by the Florida Public Service Commission, typical business customer bills are projected to be below the national average through 2025 as we continue building a more resilient and sustainable energy future all of us can depend on – including future generations.

This includes adding more zero-emissions solar, pairing it with battery storage and even piloting innovative green hydrogen technology, that could potentially unlock 100% carbon-free electricity that's available 24 hours a day.

This also includes investments in resilient infrastructure projects as FPL continues building a stronger and smarter energy grid to deliver reliable service in good weather and bad.

I don't want our children and grandchildren to inherit a mess because of the decisions we made – or refused to make – today. It's why FPL will never stop innovating and we'll never stop challenging our way of thinking to make Florida an even better place to live.

And, we'll do it while delivering electricity that's clean, reliable and increasingly affordable.

Best wishes for a safe and joyous new year.

Eric Silagy, President and CEO, Florida Power & Light Company
