

We've identified an issue with your customer-owned electrical equipment.

Homeowners own and are responsible for electrical equipment attached to the home (service stack, attachment hardware, riser and meter box) and the pole with an attached meter box for mobile or manufactured homes.

FPL is responsible for the wire or service line to the house and the electric meter.

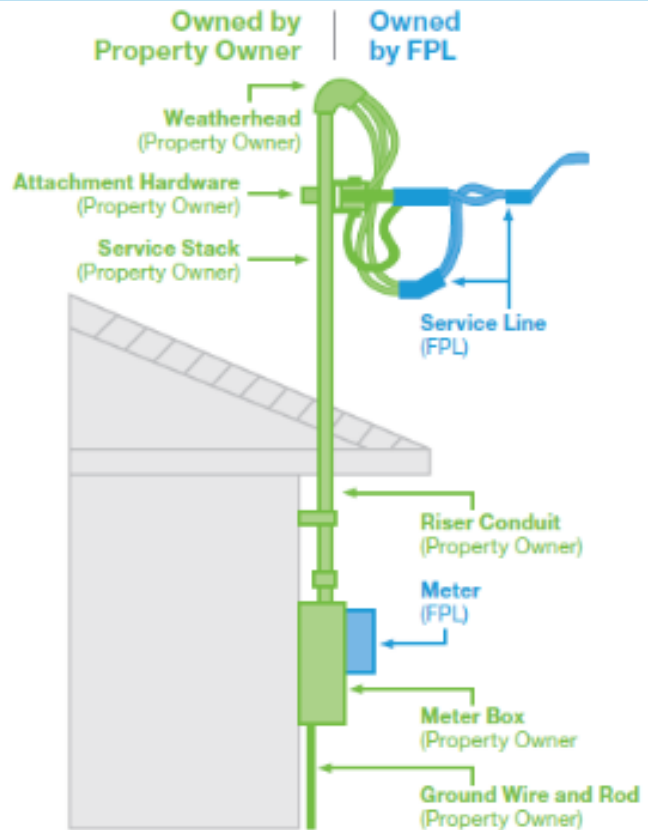

The damaged equipment is your responsibility to repair.

If you rent, contact your landlord or property manager right away.

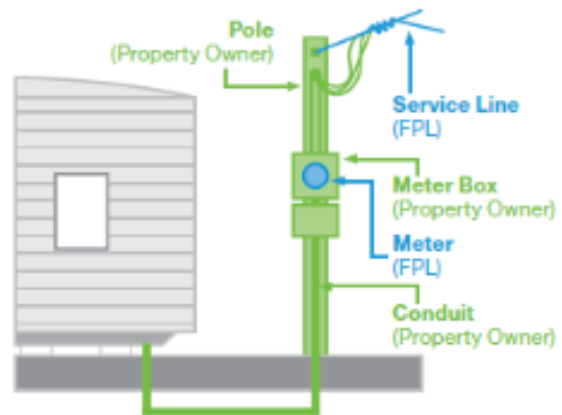

Next steps

1. Hire a licensed electrician to repair the issue.
2. Your electrician will obtain any required permits and inspections.
3. After repairs are complete, your electrician must call FPL at 800-226-3545 and provide their license number.
