Energy Answers

Q My business has a lot of electronic equipment that needs to remain “on” or running all the time. What’s the best temperature setting?

A While technology has evolved over the years, it’s always best to check with the product manufacturer to see what they recommend for operating conditions. Read the full answer at:

Celebrating Electric Vehicles

Electric vehicles (EVs) are cleaner and more affordable than gas-powered cars and are equipped with the latest technology. Join us as we celebrate National Drive Electric Week, Sept. 10-18. Learn more: FPL.com/EV

Preventing lightning from zapping your service

Lightning is a major cause of power outages and flickers. See what we're doing about it and get tips to protect your business. Learn more: FPL.com/LightningLab

Protect yourself from scams

If you download a mobile app claiming to be FPL that requires you to provide personal information, do not enter your account information and delete the app immediately. Read more: FPL.com/protect

Storm charge adjustment

A routine adjustment to the storm charge portion of your bill takes effect this month. Adjusted up and down periodically during the year with Florida Public Service Commission approval, this charge helps pay for previous hurricane restoration costs and replenish the reserve for future storms. Effective September 1, the storm charge rate will decrease to \$1.56 per 1,500 kWh for small, non-demand business customers. View information about your rates: FPL.com/rates
